

NextCloud 27 Your Installation Has No default phone region Set

Find your NextCloud "config.php" file.

```
cd /var/www/[. . . path . . . ]/nextcloud/config/
```

List files in the config directory:

```
ls  
  
config.php
```

Use Vim or Nano to edit the config.php file.

```
sudo vim config.php
```

Before the line containing:

```
'maintenance' => 'false',
```

Insert the following line:

```
'default_phone_region' => 'US',
```

Near the end of the config.php file should look like this:

```
'default_phone_region' => 'US',  
'maintenance' => false,  
);
```

Save the vim or nano edits/changes to the config.php file and restart apache2

```
sudo systemctl restart apache2
```
